CYBERTECH 2018

THE EVENT FOR THE CYBER INDUSTRY

ABOUT CYBERTECH TEL AVIV 2018:

Cybertech is proud to present Cybertech Tel Aviv 2018 - an international conference and exhibition taking place in Tel Aviv, the heart of cyber innovation, on January 29th-31st, 2018.

Cybertech is one of the largest cyber solutions events around the world, with events in such locations as Singapore, Tokyo, Rome, Panama, Los Angeles, Washington D.C., Toronto and more! Since 2014, Cybertech has served as one of the foremost networking & B2B platforms for global industry.

Speakers and attendees include decision-makers and thought leaders from both industry and government alike. Cybertech serves as a global dialogue on these threats and solutions effecting the community globally, with sessions including: AI, Advanced IoT, Blockchain, Big Data, Fintech, Cloud, Privacy, Proactive Technologies, Defense, Inside Threats, Mobile and communications, and more.

Cybertech brings together leaders of the cyber industry, governmental decision-makers from around the world, technology experts and enthusiasts for dialogue of commercial problem-solving strategies for diverse challenges in the cyber realms.

The Cybertech platform features both a conference with speakers from around the globe, and a massive 3-day exhibition. Conference participants can enjoy learning about the most innovative approaches to cyber by experts in the area. Past speakers have included The Prime Minister of Israel, CEO of CISCO, Governor of Michigan, the CEO of Checkpoint and many more. The Cybertech trade show features hundreds of companies from the global industry, from major corporates to start ups, all under one roof.

OPPORTUNITIES FOR ATTENDEES AND DELEGATIONS:

Cybertech is the leading platform where C-level executives, entrepreneurs, investors, diplomats and government official, journalist and tech people meet to learn, do business and network.

This event is an outstanding opportunity for delegations to personally meet with colleagues from around the world, networking, acquainted with the latest cyber innovations and solutions, and to learn from leading experts in the cyber arena.

In addition, as the only event in Israel where cyber and business meet, it offers the opportunity to pre-schedule meetings with companies/startups, through our accessible B2B platform for all participants.

CYBERTECH 2018

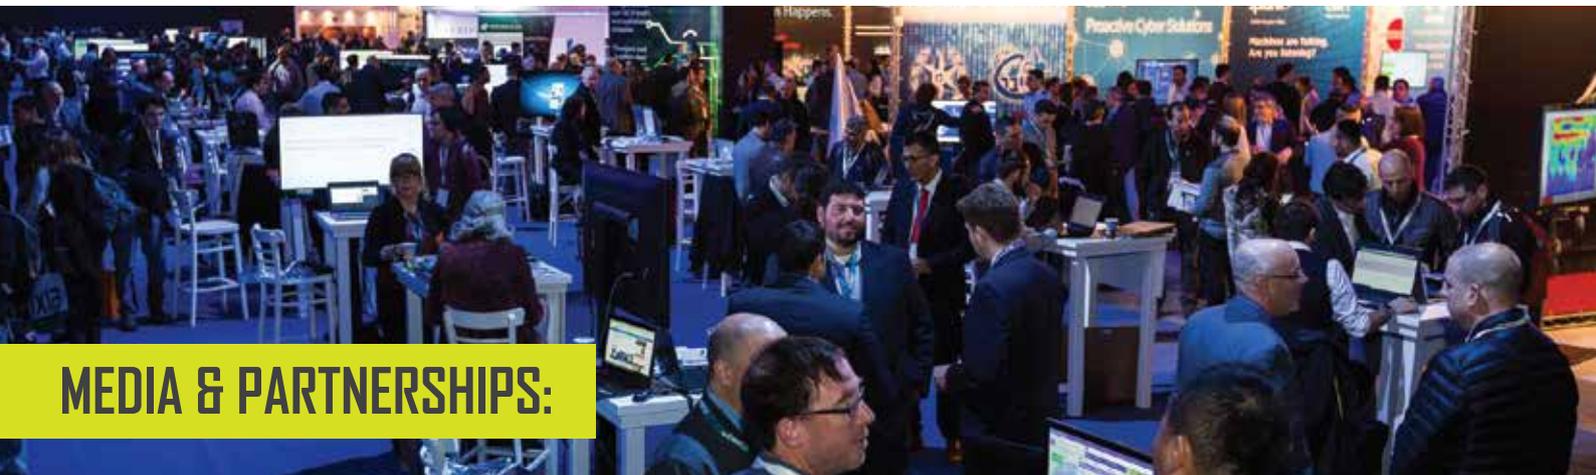

THE EVENT FOR THE CYBER INDUSTRY

EXHIBITION AND SPONSORSHIP FOR COMPANIES AND STARTUPS:

Cybertech hosts the most significant exhibition of cyber technologies outside of the United States, included the renowned Startup Pavilion. Cybertech is the perfect platform to visit cyber leaders both large and small, and meet personally with local and international entrepreneurs and industry leaders. Hundreds of technology companies, governmental bodies, law firms, VCs and more from around the world gather to display the latest technological solutions on the Cybertech exhibition floor.

Cybertech's B2B platform gives added value to networking and industry connections, allowing participants to set up meetings with exhibitors, sponsors and visitors not only at the event, but online ahead of time.

MEDIA & PARTNERSHIPS:

As one of the largest cyber events in the world, with over 13,000 attendees every year, from more than 60 countries around the world, Cybertech is a destination for global media- from papers, to magazines, bloggers and television.

Media partnerships are undertaken with organizations sharing the Cybertech values who would like to promote the event to their network. For further information, please contact us through email or phone to learn how we may work together.

CYBERTECH 2018

THE EVENT FOR THE CYBER INDUSTRY

COLLABORATION WITH GOVERNMENTAL ENTITIES:

Cybertech's success is in part due to its flourishing partnerships and collaborations with over 250 industry partners, international & national institutions, government agencies and non-profit organizations. Since the beginning of Cybertech in 2014, the government of Israel has emphasized the central role this event plays in the Israeli and global cyber ecosystem. This includes the great support and collaboration from the Prime Minister's Office (including the National Security Authority), the Ministry of Foreign Affairs, the Ministry of Energy, and the Ministry of Economy, and other official bodies.β
