CYBERTECH 2018
THE EVENT FOR THE CYBER INDUSTRY

CYBERTECH CONFERENCE AND EXHIBITION

As cyber threats continue to grow around the world, more and more companies, governments and individuals are looking for most advanced security and technology solutions to stay ahead of the game. In an increasingly networked environment, global cooperation and knowledge-sharing on countering cyber risks is more important than ever before - necessitating an international platform and stage for cyber leadership.

Cybertech is proud to present Cybertech Tel Aviv 2018! The international conference and exhibition will take place January 29th-31st, 2018.

This annual 3-day global event brings together leaders of the cyber industry, government decision-makers from around the world, technology experts and enthusiasts for dialogue and presentation of commercial problem-solving strategies for diverse challenges in the cyber realm.

Topics include the Internet of Things, fintech security, artificial intelligence, protection of critical infrastructure, cyber crime, and entrepreneurship.

Cybertech Conference and Exhibition Offers:

Cybertech provides attendants with a unique opportunity to become acquainted with the latest innovations and solutions from the international cyber community. The conference provides an incredible B2B platform with a focus on networking, strengthening existing alliances, and forming new ones.

» **Top-Tier Speakers and Panels:** Heads of State, C-level executives, entrepreneurs, multinational corporations, investors, and other top-tier speakers for keynote and panel sessions

» **Cybertech Exhibition:** Hundreds of technology companies, government bodies, law firms and more from around the world gather to display the latest technological solutions

» **Exclusive Startup Pavilion:** Innovative young startups present cutting-edge developments and obtain global exposure

And much more!
